

GRANDPARENTS DAY

GRAND PARENTS are guide and mentor who instilled in us a great character, which is undeniably responsible for most of the success we attain throughout our life. They have taught us the values and traditions. Our grandparents were that trusted friend who always agreed to play with us and would often take us out when we were bored. Grand Parents are not just words but the world of a child. Grandparents refer to more care, affection, love and greater experience of life. And to celebrate this special day, we daisians celebrated it by preparing beautiful handmade cards for them.
