

ORIENTATION DAY

“Coming together is a beginning, keeping together is a progress and working together is success.”

The young mind is flexible, sensitive, and is influenced and shaped by events in the outside world. Most of what children learn is acquired by exploring, playing with and observing the relation between objects. New parents are apprehensive about the new environment they are sending their child into .Our aim is to encourage the children to be caring, self –disciplined, tolerant, honest and friendly. This can't be achieved by teachers alone.

We believe that if parents and teachers go hand together they can achieve success. We Daisians began the great academic year of 2016-17 with an **ORIENTATION DAY** program on 4th of April 2016.

The event witnessed very entertaining moments like the skit performance by the teacher, acknowledging moments like the speech by our school Incharge Ms. SHINEH SURI and moments of higher vision like the words of wisdom by our Honorable Vice -Chair Person Ms. REEMA TONDON.

The day ended with the parents meeting their child's class teacher, clearing doubts and queries, with a cup of tea and snacks.
